

C & J Picture Frames Inc. has been manufacturing museum quality custom picture frames for the finest art galleries and museums since 1990.

Our frames will enhance any artwork making it more attractive to a buyer and increasing its value. Once your customers experience these quality frames, they will thank you and remain loyal customers for years to come.

Our techniques remain virtually unchanged from those used by master frame makers centuries ago. All of our frames are individually hand made to your size and finish specifications. All carving is done entirely by hand and we use only the finest kiln dried bass wood and traditional materials.

This catalog contains samples of over 500 of our picture frames in a wide variety of styles and finishes. All frames can be made in 12k white gold or 22k yellow gold. Finishes, designs, and colors can be matched or customized to meet your specifications. We are constantly coming up with new designs and ideas to satisfy our customers needs.

Please contact our knowledgeable sales staff with any questions you may have. We are always available to provide technical assistance or advice.
